

# What our schools say

“

Words can't describe the positive impact the National Schools Breakfast Programme has made on the children and their grown-ups. Besides the nutritional value of having breakfast and all the positives that come with that. We have been delighted to see how having hot bagels on the playground (Before Covid) has made social interaction between the parents such a positive thing...it has impacted the way the parents interact positively with school staff too. We as a school are going to continue with bagels.”

“

Due to our demographic, there are many children in school from disadvantaged families and come to school very hungry. Both the playground bagels and the breakfast clubs have been invaluable for those children. ”

“

The NSBP has helped our most vulnerable children to start the day calmly and with some nutrition. It has also helped our families on very low incomes as the breakfast club has meant that they could access work without the cost of childcare squeezing them out of the workplace. The impact on school has been significant. ”

“

The programme was well organised from the start to finish, any changes in orders have been dealt with efficiently and we are very happy with what NSPB has helped us set up. We will be continuing with this provision as long as we can get sponsorship from elsewhere. ”

“

Really grateful for all the help that we have received. The children are no longer hungry and concentrate in lessons. Even their behaviour has improved. Being able to provide breakfast for children feels so rewarding, but we couldn't have done it without you! ”
