## Supporting children with Attachment

Building  
stronger  
families

### Why do we need to support children with attachment?

Attachment difficulties may be experienced to varying degrees by up to 50% of your class.

This will impact on their emotional and behavioural responses, their ability to make positive, lasting relationships, and to settle to learn.

## **Aim**

The BOSS presentation aims to develop your knowledge and understanding of the causes of attachment difficulties, and to provide you with practical strategies that can be used to support children in the classroom

## **Learning Outcomes**

By the end of the training session participants will

- Have an increased knowledge and understanding of the impact of trauma on the brain
- Know the three styles of Attachment as defined by Mary Ainsworth
- Have an increased confidence in supporting pupils with attachment difficulties in the classroom

## **How to book**

Contact our team using the details below to express an interest in joining the course
