**An introduction to the service/project**

We are a long established Supported Housing Service that is contracted to deliver our specialist mental health housing provision in the Borough of Lewisham. We have a diverse service user group that reflects the diversity of the London Borough of Lewisham. This is an exciting opportunity to join our dynamic and innovative team, utilizing the Recovery Model and a Trauma Informed Approach to support service users into independent living within a period of 2 years. We are creative in responding to local challenges and changing needs and are committed to service user involvement and co-production in all that we do.

**Your impact**

We are looking for enthusiastic, pro-active and experienced recovery workers to join our team. The successful candidates will utilise Recovery Star tools and a strength based, Trauma Informed model to promote independence and plan resettlement into the community. You will ensure Action Plans are formulated with clear objectives and SMART outcomes, agreed jointly with service users and reviewed regularly in liaison with relatives, care co-ordinators and relevant others. We are committed to the principles of Co-Production and there is an expectation to encourage and support service users to be fully involved in all aspects of service delivery. You will be expected to carry out full risk assessments of service users, incorporating the views of any other agencies involved and of the service users themselves. We have a successful volunteer programme to support delivery of action plans and you will have the opportunity to supervise a volunteer for which full training and support will be given. As part of our commitment to developing the skills of service users we deliver a comprehensive workshop programme which all staff are given training and support to co-deliver.

All tasks and responsibilities are currently being carried out in line with government advice with regard to social distancing and health and safety measures. This will include working via teams/zoom as well as presence on scheme.
