ONLINE SAFETY

The internet can be great for finding information, playing games, or even meeting people.

But there are rules you should follow to stay safe.

INTERNET SAFETY RULES

Don't give personal information like your address, phone number or bank information.
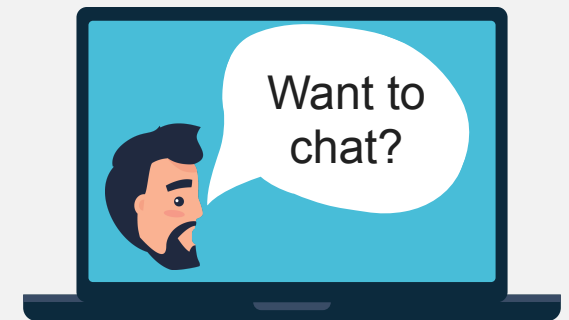

**123 Main St
Anywhere, USA**

6723 77493

555-123-4567

You should avoid talking to strangers.

Do I know this person?

People are not always who they say they are and sometimes don't do what they promise.

Hi. My name is Sarah. I'm 13 years old and I think we go to school together.

Avoid unknown or unsecure websites or chatrooms as these can be unsafe.

ONLINE SAFETY

To help protect your privacy and safety keep computers and accounts password protected.
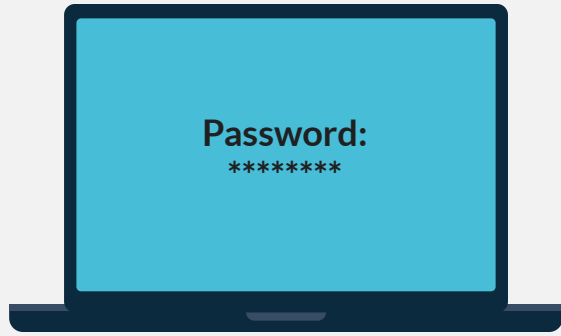

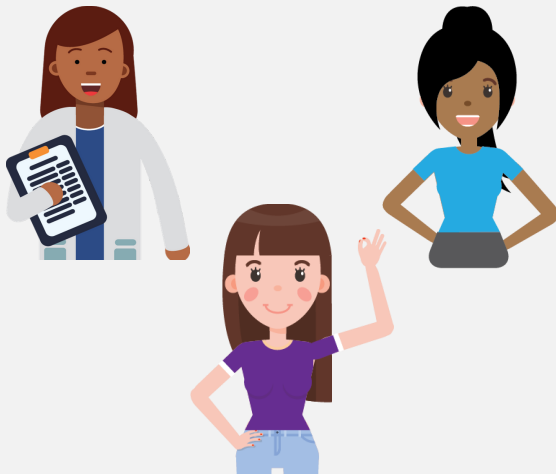

Password:
****

Only share passwords and account information with parents or trusted adults.

My password is..

Sometimes people may need to access your personal information and accounts to help you.

Can I look at your account so I can prescribe your medicine?

These people can be parents, teachers, or doctors. They should ask permission first.

Always save the files on your computer in case there is a problem and things break.

Click to save to the cloud
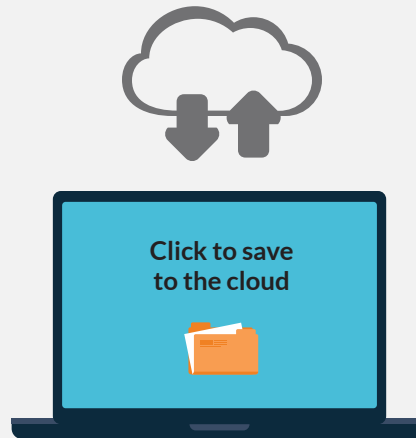

If you feel uncomfortable when interacting with others online, leave the situation and ask someone you trust for help.
